Explanation of Symbols and Technical Terms

PVC

PVC produces a stiff fabric with a glossy and a silky shine.

PVC FREE

PVC Free Fabric is eco-friendly material that provides heat and glare control and helps conserve energy.

LEAD FREE

The Lead-free stamp marks confirmation of commitment to remain environmentally responsible.

Fiber glass

The advantage of Fibreglass is that it could easily be moulded into any shape, has mechanical strength that is so strong and stiff for its weight that it can out-perform most of the other materials.

Fire Retardant

Fire Retardant fabrics are textiles that are naturally more resistant to fire than other fabrics due to chemical treatment or manufactured fireproof fibers.

GREENGUARD

GREENGUARD Certification helps buyers identify materials that have low chemical emissions, improving the quality of the air in which the products are used.

Anti Bacterial

Antibacterial fabrics promise freshness, stain protection and an extended product life.
