Note: Fixit Design has standardised tube and cassette as per the size of blinds. You can choose the type of fixing option as per your requirement. Details of cassette depth will help you decide viability of installation for inside fixing. For outside fixing, depth of the cassette need not be checked.

◆ Bottom rail design

Round Bottom Rail

Pentagon Bottom Rail

Decorative Bottom Rail

Fixit Design provides various options in bottom rails to choose from. We have options of round, pentagon and decorative bottom rails. These bottom rails blend beautifully with the blinds enhancing their look by making them more stylish and sophisticated.

◆ Operating systems

For your comfort and pleasure, Fixit Design provides wide range of operating systems for Roller blinds.

1. Manual with standard Ball chain.
2. One Touch Up is a smart system wherein you just need to pull the operating cord, and the blind will roll up on its own.
3. In Automation, Fixit Design offer Blinds operated by remote or smart phone, which adds to your comfort and pleasure. More details overleaf.

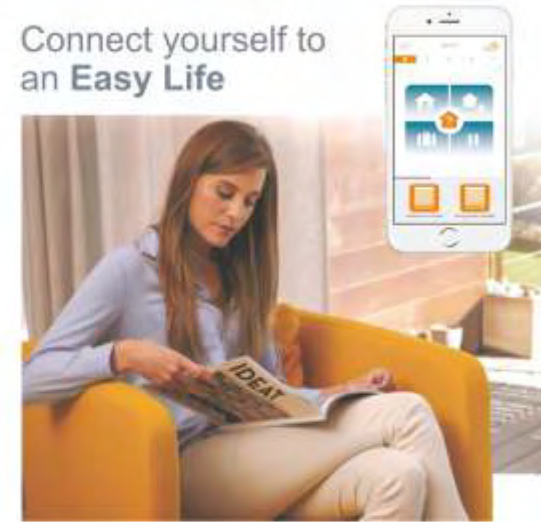

◆ Automation

Automation in blinds gives your home a touch of originality, improves function and adds value. It makes complete sense for those hard to reach places. We offer a blend of design, technology and innovation that is easy to use for everybody and is amazingly versatile. You can choose from wide range of portable controllers and technologies like WT, RTS and Wire Free to fulfil all your automation needs.

The Remote Control allows you to preset and easily operate a group of up to sixteen different window blinds, individually or together with just a press of a button. Remote Controls are available in different colours and can also be affixed to a wall.
